PROSPECTS FOR HILO RAILROAD

That the Hilo railroad is beginning to tap a new and vastly profitable district as a result of its Puna extension is the cheering news reported to the annual meeting of the company in Honolulu yesterday afternoon. The reports of the various officers show that in spite of a great deal of extension and improvement work, the railroad is on the safe side of the ledger financially, with net profits for the year of \$5,280.12.

The annual meeting was made the occasion for a slight change in officers. L. A. Thurston, president during the absence of B. F. Dillingham resigned and Mr. Dillingham was re-elected to the presidency. Mr. Thurston, in turn, being elected vice-president. H. M. von Holt took the place of Albert Waterhouse, resigned, on the board of directors and F. Klamp was also elected director. The personnel of the company now is:

B. F. Dillingham, president; L. A. Thurston, vice-president; A. W. Van Valkenburg, secretary; W. F. Dillingham, treasurer; E. E. Paxton, auditor; W. F. Dillingham, E. H. Wodehouse, F. Klamp and H. M. von Holt directors.

President Thurston's report in part was as follows:

"A trackage agreement has been entered into with the Puna Sugar Company, under which the Railroad Company has secured the right to operate over the plantation railroad on approximately the same terms as over the Pahoehoe branch. For the present 35-lb. rails are being used. Heavier weights will be substituted when the traffic warrants it.

This extension of approximately seven miles, will be completed by September 1st next, when the regular Puna train, will extend its schedule to Kaneohe.

Cant & Bolte will immediately begin the shipment of ties, lumber and firewood. The extension also reaches the rubber plantation of the Pacific Development Co. It opens upwards of 1,000 acres of the most fertile land in Puna, heretofore inaccessible for lack of roads, pack animals over obscure trails having been heretofore the only means of transportation. A further extension of a mile to Kamali, will give access to another 1,000 acres of rich land. It is confidently expected that the land along the line of this extension will speedily come into cultivation and that it will become a

valuable feeder to the general system."

The financial statement shows gross receipts for the year as \$253,882.18, operating expenses and fixed charges as \$208,429.39, and net earnings as \$45,452.99, with a balance, over all charges as \$5,280.12, given as net profits.

The road carried 189,796 tons of freight this year as against 118,951 for 1909.

The receipts from freight traffic amounted to \$178,951.99, as against \$132,186.23 for 1909 and \$92,756.13 for 1908.

The number of passengers carried during the year was 77,074 as against 75,324 for 1909 and 62,885 for 1908; an increase in number of 1,750 over 1909, and 14,189 over 1908.

The receipts from passenger traffic for the year were \$33,289.32, as against \$32,301.55 for 1909 and \$27,321.11 for 1908; an increase of \$987.77 over 1909, and \$5,968.21 over 1908.

The Kamali Extension will add somewhat to the passenger traffic during the coming year, and the opening of the Hakalan Extension should more than double the number of passengers heretofore carried.

Capital Stock.
